

Designer Series Wooden Return Air Access Panels & Grille Frames

DESIGNER PANELS

Standard Trim

Deluxe Trim

Premium Trim

Add the finishing touch to your hotel or condominium project with millwork made from New Zealand Pine that delivers to your job site primed and ready to be painted. Whether you require traditional or contemporary finishes, IEC's optional Designer Series Wooden Return Air Panels and Grille Frames will complement your vision with a stylish and flexible alternative to metal HVAC access panels and grille frames.

STYLE MEETS PERFORMANCE

IEC has combined the look and flexibility of custom millwork with state-of-the-art design. Our panels utilize a patented locking system requiring no screws or latches to install. The result is a quality product engineered for maximum air flow performance and durability.

EASY TO PAINT

Our Designer Series is adaptable to any room scheme. IEC's wooden return air panels and grille frames are delivered primed with two coats of oil-based primer so painting is simple. Matching panels and grille frames to the interior color is easier than ever.

TRIM & FINISH OPTIONS*

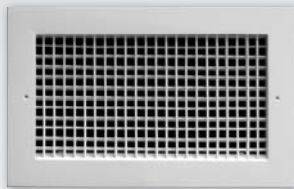

Standard Trim

Deluxe Trim

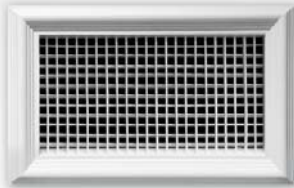

Premium Trim

*Panels are shipped primed and ready-to-paint.

SUPPLY GRILLE FRAME COVERS

Standard Trim

Deluxe Trim

Match the supply grille to the return air panel with our paint-ready wood frames that fit perfectly over the diffuser's metal frame. Available in Standard Trim and Deluxe Trim. Frames are designed to use existing diffuser mounting hardware and hole location.

After

ADD THE FINISHING TOUCH TO YOUR HI-RISE PROJECT

You worked hard to get every detail right. Don't forget the return air access panels and supply diffusers. Our Designer Series comes in several trim options to match your design requirements and complement your project's décor.

- Eco-friendly New Zealand Pine
- Shipped separate from the units, primed and ready for the paint of your choice
- Easy to install and maintain
- No visible return air access panel mounting latches or screws
- Hidden safety latch to prevent unwanted removal of panels
